APPENDIX NO. 3

Personal

HEADQUARTERS 3 CANADIAN INFANTRY DIVISION

12 July 1944

Dear Col Clarke:

May I take this opportunity to express to you and your men my personal thanks and great admiration for their excellent co-operation during both the period of training for the assault, the actual landing, and the fighting thereafter.

Even though I am not a gunner, I know the physical strain that they have undergone so well, and the whole Division has the utmost admiration for their actual shooting. You will no doubt be in support and also under command my Division many more times in the future, but now that the landing is history and Caen has been captured and you have reverted to your normal role I do not feel that I can let you go without saying thank you and good luck.

Sincerely,

(Sgd) R.F.L. Keller, Major-General

VILLONS LES BUISSONS MR004765 7F/1	1 Aug	44	The Regiment spends a quiet day in Rest Area. S.P's and vehicles generally receive a thorough going over by detachments and drivers aided by L.A.D. 35 O.R's and 4 Officers go to Rest Centre at CHATEAU BEAUREGARD for a 4 day rest.	
"	2 Aug	44	Col. Clarke addressed a meeting of all Officers during the morning. He paid tribute to those who had become casualties and officially welcomed the Officers who had taken their places. He then went over highlights in the past campaign and pointed out lessons that had been learned and that could be learned. He asked that sight-seeing tours to BAYEUX and to our own Nan Red Beach be organized under control of Officers. He outlined the other recreational arrangements that were being made. He then pointed out that we must take advantage of this 5 day rest period to cover certain work necessary to ensure a peak of fighting efficiency when we return to battle. This was covered under 3 headings: (a) Personal maintenance, discipline and dress (b) Vehicle and gun check and maintenance (c) Help to reinforcements and men in new jobs.	
"	3 Aug	44	The Regiment paraded this afternoon to an area about ½ mile South-west of COLOMBY. Here along with 14 Fd Regt, 3 A/T Regt, 4 LAA, Camerons of Ottawa and 3 Div RCE, RCAMC, and Provost Corps, we were inspected by Maj-Gen. Keller. Following the inspection the General gave a Montgomery "Round me move" and talked to the troops. He pointed out the high reputation that the Div. now has and asked that full use be made of this rest period to enable the Div to not only live up to its record to date but to improve that record. It was an impressive talk.	
"	4 Aug	44	"B" Echelon bombed during the night resulting in six casualties, including BQMS Edey - all six were evacuated. One 60 cwt completely destroyed and three others damaged. The personnel of the Regiment with the exception of "B" Echelon personnel were transported to a large cave at FONTAINE HENRY and enjoyed a performance by a section of the Canadian Army Show. This cave could seat 1100 people. At 1900 hrs the Officers were briefed by Lt.-Col. Clarke. The Regiment goes under command of 4 Cdn Div to-morrow and we return to action in the area north of BRAS.	
BRAS MR051631 7F/1	5 Aug	44	Advance parties moved to BRAS area in the morning and at 1500 hrs the Regiment received the order to move. At 1700 hrs the Regiment was in action on Army Grid about ½ mile North of BRAS. We are advised at 2000 hrs that 4 Div is attempting a push South to LA HOGUE and TILLY with a long distance push through if successful. Attack commences 2100 hrs but find areas still too strongly held and troops are withdrawn

"	12 Aug 44		In the morning we received our orders from Div that camouflage was to take precedence over keeping the guns in action - the purpose to hide the presence of an Armoured Div in this area. A Staff Officer Camouflage, Capt. Bell inspects the area in the afternoon and reported that an excellent job had been done and that "The Regiment had disappeared". Lt.-Col. Clarke briefed the B.C's during the afternoon on the tactical situation and proposed plans. Any one of three plans may be adopted: Plan 1: If II Div Infantry find the opposition weak on the West side of the River LAIZE IV Div will attempt to break through on that side and reach the high ground N.W. of FALAISE. Plan 2: If Recce Units find a weak spot along the left flank IV Div to break through to high ground N.E. of FALAISE. Plan 3: A full scale frontal attack. Lt.-Col. Clarke returned from Div H.Q. about midnight with the word that Plan 3 would go into effect.

This is to take place to-morrow and involves a move by us to the area 108515. Advance parties left at 1430 hrs to prepare this area which will be occupied after midnight. Weather - clear and warm.	
MR108516 7F/4	14 Aug 44		After midnight the unit moved to new area MR108516, arriving at 0200 hrs. The tanks moved along dirt track and the dust made visiblity very bad. One Sig D.R. and one Able were killed by tanks during the move. Capt. Murdock and Capt. Harrison went as FOO's with the 22nd Armd Regt and the Lake Superior Regts respectively. Major Mewburn went to 4 C.A.B. H.Q. as C.O's Rep for operation "TRACTABLE". The operation commenced at 1200 hrs and at 1145 hrs our Regt began firing its allotted tasks. During the day news as to our progress was scarce. We later found out that Capt. Murdock's tank had hit a mine field and was later hit by an 88mm, two of his party were casualties. During the advance Capt. Harrison was killed by a shell. This was a serious loss to the Regt as he was considered a very able Troop Comdr & FOO. Major Mewburn also had bad luck as 4 C.A.B. H.Q. ran into heavy A/T fire andmost of their party was wiped out. Out M.O. Capt. Webster was evacuated, having been wounded by shell fragments while attending to a casualty. During the afternoon Recce parties were sent forward to recce a new gun area in square MR1649 North of BOUT DU HAUT. During the recce four of the party were casualties. Lt. Smith, our Sig Offr and three O.R's being wounded by shell fragments. The Regt moved to this new area at last light and our guns were reported in action in this position at midnight. At 1510 planes reported as our own bombed the surrounding area but fortunately no direct hits were made on the Regt'l area. Weather - clear and hot./ Slit trenches were very popular for an hour or so.	H.Q.
OLENDON	15 Aug 44		Except for a few enemy aircraft bombing in the area, it was a very quiet night. At first light Major Peene went forward to recce new area as it was felt the present one was under enemy observation from the left flank. During the morning we fired a number of targets supporting the 4 C.A.B. in a further push. At 1320 hrs Regt moved to new gun area North of OLENDON MR168450 and were in action at 1530 hrs. During the afternoon several planes of what appeared to be our own tactical airforce strafed and bombed the area. There were no casualties in the Regt. Except for the occasional target the rest of the day was quiet and by nightfall the picture up front was becoming less obscure. From all reports our armour was on their objectives, the high ground north of FALAISE. The weather during the day was hot and dry, any movement of vehicles causing very heavy dust.

OLENDON MR168450 7F/4	16 Aug 44		During the night there was considerable enemy air activity in the area, a number of bombs and flares were dropped but the Regt came through unscathed. MR211404 7F/4	17 Aug 44		After a quiet night recce parties under Major Peene went forward to recce a new gun area in square 2140. At 0700 hrs guns moved to occupy the area MR211404 and were in action there by 0920 hrs. On arrival there btys found a considerable number of enemy still in the area and in all, our men took 3 Officers and 44 O.R's PW. Capt. Orme, the RCASC Amn Officer rescued an American pilot Officer John M. Buston. He was a Thunderbolt pilot whose plane was shot down over FALAISE.
